Duke University

Mathematics Department

Computer Account Application Form

Eligibility: All regular members of the mathematics department (undergraduate major, graduate student, postdoc, faculty, or staff) are eligible. If you are not a regular member of the mathematics department, please include the signature of your faculty sponsor or a math class name. Note that all the accounts for a math class will be routinely purged without warning at the end of the semester. Please see the system administrator if you want to have your account preserved.

Instructions: Please fill in *all* of the requested information clearly. Lower case is required for your login name. Your initial password should be at least six characters long and contain a mixture of upper-case and lower-case letters, punctuation symbols and numbers. Your password should in no event be a word that can be found in *any* dictionary, or any simple transformation of readily available personal information such as your login name. Make sure that the upper-case and lower-case letters are easily distinguishable: write the lower-case letters considerably smaller than the upper-case letters and use ∅ for 0(zero).

Important! Accounts for math classes will be removed without warning two(2) weeks after the class ends. Other accounts will be removed two months after the graduation/departure date with early notification.

Name: ______________________________

Department(Circle one): faculty postdoc staff grad major
Graduation/Departure Date: ____________

Non-department: Sponsor/Class: ______________________
